## CDA 2017: Experience Exchange from Operation and Building of LTP Archives

### Press release

The 2nd International Conference on Long-Term Archiving, organized under the auspices of the University Library in Bratislava (ULB) on the occasion of and as part of a Week of science and technology in Slovakia (tyzdenvedy.sk), will take place in Bratislava on 09th November 2017. The conference will focus on the experience of building and operating LTP archives. Presenters from the Central Data Archive will present their empirical experience in operating a long-term archive of digitized data in the ULB. Other presentations will be held by experts from the National Library of the Czech Republic, the Library of the Academy of Sciences of the Czech Republic, the National Library of Poland, the National Library of Hungary, the Archives of the Ministry of the Interior of the Slovak Republic and, last but not least, experts from the National Educational Center or commercial companies Cosmotron Slovakia and Tempest.

The purpose of CDA 2017 conference organizers: Exchange of experience and building LTP archives is to contribute to the exchange of experience, know-how in this field and enhancement of inputs and outputs to CDA in the form of selected contributions, also through discussions, conference bulletin (CDA 2017 : Exchange of Operational Experience and Building LTP Archives – Bulletin from the 2nd International Conference) and exchange of practical and theoretical knowledge and opinions in an international context. Attention will also be paid to the ambition of the University Library in Bratislava, the oldest scientific library in Slovakia, in the field of scientific and research activities. We expect that, thanks to the conference at the University Library in Bratislava, an initiative for the future systematic and long-term cooperation of interested experts and institutions will be created.

The conference program and other information are available at:

[http://cda.kultury.sk/en/Conference\\_CDA\\_2017](http://cda.kultury.sk/en/Conference_CDA_2017). The conference will be open to the subscribed auditorium.
